

Cookie Policy

A cookie is a small text file that the website sends to your device for the purpose of keeping records. It identifies your device, typically your web browser, but it cannot directly identify you.

Some cookies are necessary to operate our website (e.g. for establishing and keeping sessions), while other cookies may be used for the following purposes:

- Improving website functionality;
- Collecting analytical data to improve website performance;
- Delivering advertisements that may be of interest to you from us or our advertising partners based on information collected by tracking users across the internet; and
- Enabling to share content on social media.

You can choose whether to allow us or third parties (e.g. our analytics, advertising and social media partners) to set cookies which are not strictly necessary for the functioning of the website via the cookie banner or cookie settings interface provided on the website.

<Cookie List>

We use cookies and other tracking technologies for the following purposes:

Strictly Necessary Cookies

These cookies are necessary for the website to function and cannot be switched off in our systems. They are usually only set in response to actions made by you which amount to a request for services, such as setting your privacy preferences, logging in or filling in forms. You can set your browser to block or alert you about these cookies, but some parts of the site will not then work. These cookies do not store any information that directly identify an individual.

Performance Cookies

These cookies allow us to count visits and traffic sources so we can measure and improve the performance of our website. They help us to know which pages are the most and least

popular and see how visitors move around the website. If you do not allow these cookies we will not know when you have visited our website and will not be able to monitor its performance.

Functional Cookies

These cookies enable the website to provide enhanced functionality and personalization. They may be set by us or by third party providers whose services we have added to our pages. If you do not allow these cookies, then some or all of these services may not function properly.

Targeting Cookies

These cookies may be set through our website by our advertising partners. They may be used by those companies to build a profile of your interests and show you relevant adverts on other websites. These cookies do not store any information that directly identify an individual, but uniquely identify your browser or internet device. If you do not allow these cookies, you will experience less targeted advertising.

Social Media Cookies

These cookies are set by a range of social media services that we have added to the website to enable you to share our content with your friends and networks. They are capable of tracking your browser across other websites and building up a profile of your interests. This may impact the content and messages you see on other websites you visit. If you do not allow these cookies, you may not be able to use or see these sharing tools.
